alpacked

Embark on DevOps and Cloud transformation!

Alpacked is a DevOps company providing a wide range of end-to-end services - from consulting to managed services. We established a team of top-notch DevOps experts with solid experience not only in cutting edge technologies but in building teams and implementing DevOps practices from scratch.

What challenges does we solve:

INNOVATION VS. FEASIBILITY

Balancing cutting-edge ideas with what works – staying innovation and practical.

CUSTOMER FEEDBACK

Syncing up what users want with what we can actually do – making everyone happy.

LONG-TERM PARTNERSHIPS

Keeping it real with your partners, building trust, and staying upfront about everything.

BUDGET CONSTRAINTS

Managing costs to keep things inovative, so we don't end up with tech debt.

SILOED TEAMS

Breaking down team walls to stay nimble – collaboration is the way forward.

Our services:

1. **DEVOPS AUDIT AND CONSULTING**
   Whether you're starting out or undergoing a transformation, we can help define the best strategy.

2. **CLOUD MIGRATION**
   Receive a detailed action plan to move to a reliable, scalable, and cost-effective cloud.

3. **DEVOPS AUTOMATION SERVICES**
   Implement efficient, cost-effective, and agile approach to managing your infrastructure.

4. **CLOUD COST OPTIMIZATION**
   Reduce cloud costs while enhancing the system's performance and scalability

5. **LOGS MANAGEMENT, MONITORING, AND ALERTING**
   Prevent downtime and maintain health system.

6. **SECURITY AND COMPLIANCE**
   Enhance security with our expert solutions— tailored, cutting-edge, and fully compliant.

What you get with us

### Accelerate value delivery

Optimize infrastructure and development processes at scale through repeatable automation and infrastructure-as-code approaches.
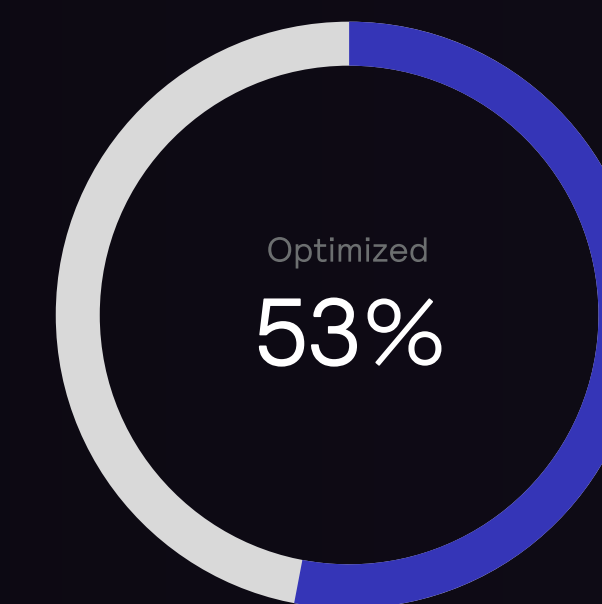

Simplify scaling

Optimize infrastructure and development processes at scale through repeatable automation and infrastructure-as-code approaches.

Prioritize security

Achieve rapid innovation without compromising security. Automated compliance policies, precise controls, and configuration management to ensure effective and scalable compliance.

Time reduced
47%

"

The company is happy with Alpacked's services. They're highly professional and have great communication skills.

Their resources integrate well into the firm's internal staff, making the engagement much easier. When we needed additional support for hybrid cloud, security, or other things, we were able to rely on them.
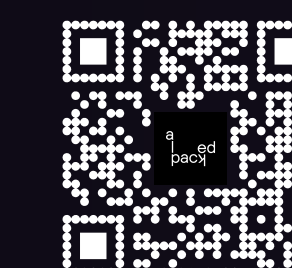

KUDO

Co-Founder & CTO, Video Meetings Company
